

Accept D grades for MnTC Transfer Courses

How do I accept transfer MnTC courses with D grades?

Situation: The College does not normally accept D grades in transfer. MnSCU Procedure 3.37.1, Part 4, Subpart E requires that all successful (A-D graded) Minnesota Transfer Curriculum courses be accepted in transfer.

A course condition code can be used to accept D grade MnTC courses.

Encoding occurs in three places:

- Condition Descriptions
- Transfer Articulation Table
- Target Institutional Reference Table

Condition Descriptions

Find an available course condition code and define it on your MNSCU list: In the example below, the MNSCU Com Course Condition code of an upper case < G > is “assigned in TA for acceptable MnTC ‘D’ grades”.

CC	MNSCU	Course/System	Condition Code Description
29	F	Course: Failing grade in audit grade table	System:
30	G	Course: Assigned in TA for acceptable MnTC "D" grades	System: Graduation application required
31	H	Course: Home Course	System:
32	I	Course:	System:

Transfer Articulation Table

Add the course condition code to each MnTC course.

Note: If you have been receiving the DARS catalogs, and the word “Goal” is in the course Memo, the course condition code can be inserted by a programmer. Please contact the DARS Team with this request.

Once the acceptable TD grades have been added, add < T: > in the Acu field, followed by the Condition Code. The < T: > is a hardwired command in DARS. T: selectively conditions a course to be given a different grade when the course comes through Transfer Articulation.

In the example below, the user defined condition code assigned in transfer articulation is < G >. The Acu condition is < T:G > Add < T:G > to all TD grades (TCD,TD+, TD, TD, etc.).

ID	Type	IU	Grade	A	R	UI	UGr	Acu	Fcu	GPA	Calc	Crdt	Ct	C1	C2	UC1	UC2	Yr	Trm	Range

29	Grade	<input type="checkbox"/>	TDF			<input checked="" type="checkbox"/>	0.5	T:G		.500	N	Y	1							-

If you accept all D grades under certain circumstances, you can still use a System condition code assignment. The < S: > D grades may also be on your grade table, as in the example below. Appearance on the Audit

Without the course condition of < G > on the source TA table, the (MnTC course) BIOL1100, with a grade of "D" articulates to a NTD grade.
