

FICE Source Report - FS@

Report which produces a list of students in Joe Cool (Student Records) by FICE code of the source institution.

FS@ will read the academic record table in DARS. This table holds all the transfer and articulated courses. The report will be printed or emailed back to the user listing:
Student tech ID Source ID (FICE) Course count

The user may request up to 5 different FICE codes in one FS@ report request. The entry needed to run this report is made in the DARwin Report Options User ID field in DA0001CP. The entry should be made like this:

REPORT=FS@(FICE#,FICE#,FICE#,FICE#,FICE#)

[Note: None of the fields in the DA0001CP screen are case sensitive.]

Here's what an example of the DA0001CP - FS@ report for source FICE Codes 002332 and 002353:

The screenshot shows a window titled "ISRS Report Parameters" with the following details:

- UT0063UG 1.61 DVLP Northwest Technical College 09/14/2004
- Report ID: DA0001CP Dars Audit Report
- Report Parameter Description Required Parameter Value Index
- User ID, Report ID, Date Time: [Empty]
- Tech Id of Student (up to 25): [Empty]
- Output to Darwin (Y/N/W): N
- Degree Program: [Empty]
- Use Com Table: [Empty]
- Force Catalog YRTR: [Empty]
- Darwin Report Options User ID: report=FS@(002332,002353)
- Export to ISRS: N,EXPORT=D,L,S N
- Delivery Method (Check one):
 - E-mail E-mail Address: [Empty]
 - Online
 - Printer Printer Queue: file Form ID: [Empty]
- Deliver To: Laurie Tralle Address Bldg/Room: [Empty]
- Start Time: 14:28 Start Date: 09/14/2004
- Process Monitor: Gkp1 Suppress header page:

Here's an example of the output of the above FS@ report:

STUNO	Source ID	No. of Courses
00010790	002332	3
00032108	002332	5
00034603	002332	5
00072072	002332	6
00072625	002332	1
00073689	002332	1
00076339	002332	4
00076714	002332	5
00076783	002332	5
00081543	002332	4
00081805	002332	3
00083009	002332	2
00083888	002332	2
00084647	002332	7

Note: Reports for non-FICE institutions, i.e., CLEP, IB, AP, are requested by adding spaces to the Source ID to 6 spaces.

The screenshot shows a web-based form for generating reports. The form includes several input fields and a 'Delivery Method' section. A red callout box points to the 'Darwin Report Options User ID' field, which contains the text 'report=FS@(ap ,)'. The callout box contains the following text: 'Example: report=FS@ left parenthesis, AP, plus 4 spaces, followed by comma, right parenthesis.'
