

# INCLTOP #PT#

## Identification of transfer schools listed in ST1111UG

**1.** The INCLTOP option #PT# allows the transfer school(s) listed in ST1111UG to appear on the audit when the transcript has not been processed in Joe Cool. After the transfer work is entered in Joe Cool, the transfer institution name no longer appears in the INCLTOP portion of the audit. This option is useful for advisors and students, as it identifies transfer work previously arrived on campus and entered in ST1111UG, but not yet part of the student's audit. **This option, used with a condition code, follows in # 2.**

**Create a text requirement turned on by the condition code set in #PT#**

The optional, text Requirement could be encoded to provide a message to students when they have unarticulated transfer work identified in ST1111UG. The Requirement is turned on with the Conditional Requirement Accept System CC of "K".
