

## INCLTOP #NA “NO AUDIT” Printing Options

### Controlling the printing of the OK Message and INCLTOP/INCLBOT in the ‘NO AUDIT’ audit.

DARS is set to print an audit called ‘NO AUDIT’ when it encounters a program on the student’s record that isn’t in DARS or doesn’t match with a catalog year/term built in DARS or if the audit you are trying to run is set in test status (and you have the corresponding RUNSTATUS set in your COM). Typically the ‘NO AUDIT’ program is built with just one TEXT REQUIREMENT that instructs the student as to why they are not getting an audit and what to do about it. Set up information for the NO AUDIT can be found at <http://www.dars.mntransfer.org/updates/websetup.pdf> on page 3.

INCLTOP #NA allows you to manipulate the ‘NO AUDIT’ - controlling whether or not you want the OK message (All Requirements Complete) to print, and whether you want the INCLTOP and INCLBOT (both) to print. If you wish to manipulate your WEB audit, you must add the #NA to your INCLWEB requirement.

The basic setting is #NA. The possible formats are as follows (use only one):

<b>Setting:</b>	<b>Result:</b>
Don’t use #NA in INCLTOP at all	When a NO AUDIT audit prints, it will contain both the OKMESS (All requirements completed) and the INCLTOP/INCLBOT
#NAN,#	‘N’ in third position tells DARS <u>not to print</u> the INCLTOP & INCLBOT, the # in the last spot tells DARS to ‘blank out’ the OK Message
#NAY,#	‘Y’ in third position tells DARS <u>to print</u> the INCLTOP & INCLBOT, the # in the last spot tells DARS to ‘blank out’ the OK Message
#NAN,	‘N’ in third position tells DARS <u>not to print</u> the INCLTOP & INCLBOT, no entry in the last spot tells DARS <u>to print</u> the OK Message
#NAY,	‘Y’ in third position tells DARS <u>to print</u> the INCLTOP & INCLBOT, no entry in the last spot tells DARS <u>to print</u> the OK Message [Note: Result is the same as not using #NA in INCLTOP at all.]

Since this is a non-printing INCLTOP item it can be placed anywhere in INCLTOP:
