

Course Substitution #4

Purpose: Use a course that is repeatable as a substitution with a check against the course title.

Situation: Based on the student petition, the Dean of Health and Phy Ed has agreed to allow a repeatable topics course (PHED1999) to count as a Health course. The student has taken PHED1999 twice within the same term. In order to identify the correct course to substitute as the approved Health course, a title check needs to be made against the courses for selection purposes.

Audit Appearance before Exception:

NO	HEALTH AND PHYSICAL EDUCATION		
	Must complete 3 cr Phy Ed or 3 cr Health		
- 1)	NEEDS:	3.00 CREDITS	
	COURSE LIST: HLTH		
- 2)	2.00 CREDITS ADDED		
	F 06	PHED1999	1.0 A *R Topics: Walking/Running
	F 06	PHED1999	1.0 A *R Topics: Health & Fitness
	NEEDS:	1.00 CREDIT	
	COURSE LIST: PHED		

The sub-requirement for H/PE requirement requires 3 credits of Health or 3 credits of Physical Education. PHED1999 is a repeatable course (designated by *R),

Encoding:

2 BCST1236		99.0	L		-
3 BIOL2221		19.0	H		-
4 PHED1999		3.0	H		-

PHED1999 is set within the Repeat Table with a HMAX indicating up to the # of hours you are allowing it to repeat (i.e. '3') and a Chflag of H.

Exception: TC (ACTION of S) to swap a course within the sub-requirement, with a REPLACE of T to check against titles.

Field	Description
Course:	The course that has been approved for this student as a substitution (PHED1999).
Replacement Course:	The course in which the course has been approved as a substitution (HLTH2000).
Note:	The Note field {Cline} lists the course title with which you want the exception to check against.

NOTE: Without this Title Check in the Note: area, PHED1999 will not work as a course swap because there is no title indicating with PHED1999 to select.

Effect of Exception:

PHED1999 is allowed to count twice, accepts the credit, and matches the course as HLTH2000 (using the Title check to verify to correct course).
